

Series AEB.N-ZE

Progressing Cavity Pump in block design with feed screw up to 12 bar

Pumped liquid

For handling highly viscous or non-flowable, neutral or aggressive, pure or abrasive, as well as gas-containing media, also with fibrous and solids content

Main fields of application

Sewage and environmental engineering, chemical and petrochemical industries, food and beverages industry, paper and pulp industry, soap and fats industry, dye and paint industry, plastic and ceramics industry, agriculture, sugar industry

Performance data Series AEB.N-ZE

Capacity	Q	up to 750	l/min
Discharge pressure	pd	up to 6/12	bar
Differential pressure	pdiff	up to 6/12	bar
Viscosity	v	up to 1.000.000	mm ² /s
Fluid temperature	t	up to 100	°C
No. Stages	-	up to 1/2	-

Construction features

- Block design (Motor attached to pump via flange or lantern)
- Pedestal mounting
- Dry installation
- Horizontal installation
- Pump drive directly coupled or by gear or belt transmission
- Feed screw
