

Series ALLCLEAN ACNP

Progressing Cavity Pump in base plate design up to 12 bar

Pumped liquid

Low to highly viscous liquids, pasty, neutral or aggressive, pure or abrasive, gaseous or tending to froth, also with fibrous and solids content

Main fields of application

Dairies, beverages industry, meat and fish processing industry, confectionery industry, fruit and vegetable processing industries, other food industries, pharmaceutical and cosmetics industry

Performance data Series ALLCLEAN ACNP

Capacity	Q	up to 480	l/min
Discharge pressure	pd	up to 12	bar
Differential pressure	pdiff	up to 12	bar
Viscosity	v	up to 150000	mm ² /s
Fluid temperature	t	up to 130	°C
No. Stages	-	up to 2	-

Construction features

- Base plate design (pump and motor mounted on a base plate)
- Pedestal mounting
- Dry installation
- Horizontal installation
- Bearing bracket design
- Pump drive directly coupled or by gear or belt transmission
- Self - priming
- CIP-cleaning
- Reversible pumping
